15th Edition Foodpro[®] 2024

International Event on Food Processing and Technologies

The Confederation of Indian Industry (CII) – Southern Region successfully organized the 15th edition of FoodPro 2024 from 9–11 August at the Chennai Trade Centre in Chennai, India. This landmark event, spanning three days, offered a comprehensive focus on both conferences and an expansive exhibition, marking a significant moment in the food processing sector. Hosted by the Government of Tamil Nadu, with Kerala and Andhra Pradesh as partner states, and Australia as the country partner, FoodPro 2024 aimed to bring together key industry leaders, innovators, and policymakers to explore emerging trends and opportunities within the industry.

Supported by the Ministry of Food Processing & Industries (MoFPI) and the Ministry of Micro, Small, and Medium Enterprises (MSME), Government of India. The event provided significant benefits to over 50+ Micro and Small Enterprises under the MSME-PMS Scheme. FoodPro 2024 featured Guidance TN and Tamil Nadu Food Processing and Agri Export Promotion Corporation (TNAPEX) as event partners, further solidifying its role as a vital platform for fostering growth and collaboration in the food processing sector in India and beyond.

With over 282 companies showcasing innovations and cutting-edge technologies, the event attracted more than 20,233 visitors, including over 200 international delegates. The diverse audience, which included industry professionals, government officials, academicians, and innovators, benefited from the dynamic exchange of ideas that the event facilitated.

Visitors gained valuable insights into the latest advancements in areas such as agri-processing, bakery equipment, dairy technologies, food safety, packaging machinery, refrigeration systems, and seafood preservation, among others. FoodPro 2024 also enabled participants to explore new business opportunities, establish partnerships, and collaborate on solutions to drive growth in the food processing industry, positioning India as a global hub for innovation and excellence in this sector.

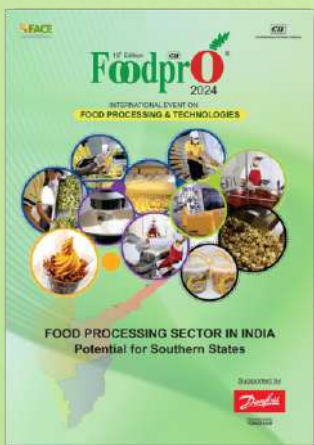

FOODPRO 2024 INAUGURATION

The 15th Edition of CII FOODPRO was inaugurated by

- **Mr P Rajeeve**
Hon'ble Minister for Law, Industries and Coir,
Government of Kerala
- **Ms Apoorva IAS**
Principal Secretary & Agricultural Production,
Commissioner, Government of Tamil Nadu
- **Dr C Sreedhar IAS**
Commissioner of Industries, Commerce & Export Promotion &
CEO, AP Food Processing Society, Government of Andhra Pradesh
- **Mr APM Mohammed Hanish IAS**
Principal Secretary (Industries & Commerce),
Government of Kerala
- **Dr R Nandini**
Chairperson, CII Southern Region &
Managing Director, Chandra Textiles Private Limited
- **Mr B Thiagarajan**
Chairman – CII, Foodpro Expo 2024 &
Managing Director, Blue Star Limited
- **Mr Srivats Ram**
Chairman, CII Tamil Nadu &
Managing Director, Wheels India Limited.
- **Mr P Ravichandran,**
Chairman, CII National committee on Cold Chain &
President, Danfoss Industries P Limited

A report on "Food Processing Sector in India - Potential for Southern States," detailing the opportunities and growth potential in the southern region's food processing industry, was released at CII FOODPRO 2024.

Left to Right: Mr P Ravichandran, Chairman, CII National committee on Cold Chain & President, Danfoss Industries P Limited; Dr C Sreedhar IAS, Commissioner of Industries, Commerce and Export Promotion & CEO, AP Food Processing Society Government of Andhra Pradesh; Mr APM Mohammed Hanish IAS, Principal Secretary (Industries & Commerce), Government of Kerala; Mr B Thiagarajan, Chairman – CII Foodpro Expo 2024 and Managing Director, Blue Star Limited; Mr P Rajeeve, Hon'ble Minister for Law, Industries and Coir, Government of Kerala; Dr R Nandini, Chairperson, CII Southern Region & Managing Director, Chandra Textiles Private Limited; Ms Apoorva IAS, Principal Secretary & Agricultural Production Commissioner, Government of Tamil Nadu; Mr Srivats Ram, Chairman, CII Tamil Nadu & Managing Director, Wheels India Limited.

FACT SHEET

282 Exhibitors

9,100 sqm of display area

20,233 Business & Trade Visitors

366 Scheduled B2B & B2G Meetings

25 Product Launches & Presentations

1 Day Conference on Food Processing Technologies

1 Day Conference on Strengthening the Food Safety, Quality and Regulatory Ecosystem: Towards Enhancing the State Food Safety Index

1 Day Consultative & Capacity Building Session

49 Speakers

714 Conference Delegates

International Participants from Malaysia & Singapore

14 Media Partners

6 Supporting Associations

INAUGURATION OF FOODPRO 2024 EXHIBITION

A GLIMPSE OF FOODPRO 2024

A GLIMPSE OF FOODPRO 2024

PRODUCT LAUNCHES

25 products and presentations were launched at the expo, showcasing the latest innovations in the food processing sector.

SPEAKERS

Mr P Rajeeve

Hon'ble Minister for Law, Industries and Coir,
Government of Kerala

Ms Apoorva IAS

Principal Secretary & Agricultural Production,
Commissioner, Government of Tamil Nadu

Dr C Sreedhar IAS

Commissioner of Industries, Commerce &

KEY TAKEAWAYS

Unlocking Value in the Food Processing Sector - Government Initiatives

Offers valuable insights into the industrial ecosystem of Andhra Pradesh, highlighting the state's prominence in food processing with its diverse agricultural outputs such as rice, shrimp, and horticultural crops. He discusses the government's robust infrastructure, including operational ports, cold storage facilities, and food parks, which support efficient supply chains and food processing initiatives, alongside the formation of farmer producer organizations and tailored business incentives.

Dr C Sreedhar IAS

Commissioner of Industries, Commerce & Export Promotion & CEO, AP Food Processing Society, Government of Andhra Pradesh

Emphasizes the growing trade relations between Australia and India, especially in food processing, driven by the Australia-India Economic Cooperation and Trade Agreement. He explains how this agreement facilitates tariff-free imports, creating a favorable environment for Australian investments in India's food processing industry, and underscores the mutual benefits of accessing both domestic and international markets.

Mr John Southwell

Senior Trade & Investment Commissioner Australian Trade & Investment Commission (Austrade)

Sheds light on the role of innovations in cold chain technology in improving food processing efficiency. He details how advanced refrigeration systems and automated solutions ensure temperature-controlled environments, preserving the quality of perishable goods, while reducing construction time and costs through modular techniques, facilitating faster access to markets.

Mr N K Mohanan

Chief Operating Officer, Rinac India Limited

Outlines the Tamil Nadu government's initiatives in food processing, such as the establishment of the Tamil Nadu Food Processing and Agri Export Corporation and the Agro Industrial Corridor project with a substantial budget. He highlights specialized projects like the Moringa export zone and Thani banana cluster, aimed at boosting production, processing, and export capabilities in the state.

Dr K Alagusundaram

Chief Executive Officer, Tamil Nadu Food Processing & Agri Export Promotion Corporation

Innovations and Trends in Food Processing Technologies

Emphasizes the importance of innovation in enhancing safety, sustainability, and nutritional value. He highlights the contributions of experts from Thermax, Pidlite, and Heat and Control in driving these advancements.

Mr Jaisinh Vaerkar

Managing Partner, The Peninsular Export Company

Highlights sustainability solutions like zero liquid discharge systems and absorption heat pumps that conserve water and energy in manufacturing. He emphasizes their impact in reducing carbon footprints and supporting eco-friendly practices in the food industry.

Mr V Satyanataraj

Corporate Regional Head, Thermax Limited

Presented durable and eco-friendly industrial flooring solutions certified by IGBC. He highlights their low-emission epoxy flooring, which meets stringent standards for clean rooms in food and pharmaceutical industries.

Mr Supratim

Head of Marketing, Pidilite Industries

Discussed advanced frying systems designed for snacks like potato chips and namkeen. He emphasizes their versatility and efficiency, enabling the production of multiple snack varieties with consistent quality and reduced costs.

Mr Venkatesha Parthasarathy

National Sales Manager, Heat and Control

KEY TAKEAWAYS

Post-harvest Management

Food security is increasingly challenged by a growing global population and shrinking agricultural land. Innovative practices like vertical farming and improved post-harvest management are essential to maximize production and reduce wastage, ensuring food security for future generations.

Mr M Srinivas Reddy
Vice President - Commercial,
Refrigeration Business
Blue Star Limited

Building cold chains is vital for maintaining the quality of perishable goods and reducing spoilage. These infrastructures improve the efficiency of the agricultural value chain, benefiting both farmers and consumers by ensuring fresher produce and reducing costs.

Mr Rajat Gupta
Director
Tessol

Addressed the link between post-harvest management, sustainability, and climate change is crucial in reducing food loss and its environmental impact. Collaborative efforts, innovative technology, and climate-smart solutions in agriculture are essential to mitigate emissions and improve resource efficiency.

Mr Nagahari Krishna Lokanadham
Head, Industrial Refrigeration & Cold Chain - India
Danfoss Industries Pvt Ltd

Highlighted the importance of refrigeration and air conditioning in reducing carbon emissions and emphasized on the transition from ozone-depleting substances to global warming mitigation efforts.

Mr Sudhir Kumar
Vice President
Frick India Ltd

Addressed the issue of food wastage while emphasizing the critical role of advanced processing and preservation methods, such as chilling and freezing, in reducing post-harvest losses. He highlighted specific innovations in cold storage and pre-cooling solutions designed for processing and exporting agricultural produce.

Mr N K Mohanan
Chief Operating Officer
Rinac India Limited

Delved into the intricacies of India's agricultural landscape, emphasizing the structural issues in post-harvest processes. He highlighted that while India boasts the largest cultivated land globally, surpassing countries like China and the US, its challenges are rooted in productivity and market linkages rather than production deficits. Despite transitioning into a surplus market post-Green Revolution, the perception of India as an agriculturally deficit nation persists, hindering progress toward addressing real issues.

Mr Senthil Kumar Natarajan
Head of Public Policy and Govt. Relations
Ninjacart

Catalysing an Enabling Framework for Food Safety & Regulatory Ecosystem

FSSAI implemented the Tatkaal Scheme to streamline instant licensing and registration processes in Tamil Nadu. Addressed concerns on laboratory testing and accreditation while urging food business operators to file annual returns by May 31.

Ms Inoshi Sharma. IRS
Executive Director
Food Safety and Standards Authority of India
(FSSAI)

Advocated for self-audits using FSSAI's new auditing format. Promoted awareness of the hygiene rating scheme to enhance food business standards.

Mr R Lalvena
Food Safety Commissioner
Government of Tamil Nadu

KEY TAKEAWAYS

Strategizing Interventions towards Staple Food Fortification

Shared a demo video of the Fortress application with participants and committed to providing updates on shelf life studies for fortified rice.

Dr Sachin Gupte
Advisor LSFF
PATH India

Discussed the fortification of oil and milk, highlighting its public health and economic benefits. Emphasized the need for greater consumer awareness about fortified products.

Ms Nikita Goel
Project Manager - Digitization & Fortification
GAIN

Presented on double-fortified salt as a tool to combat anemia, sharing success stories from Gujarat and Madhya Pradesh. Emphasized the significance of salt as a carrier for essential nutrients.

Ms Sakshi Jain
National Program Manager
Nutrition International

Highlighted the role of wheat flour fortification in combating anemia and emphasized its cost-effectiveness. Called for collaboration with wheat flour millers to facilitate its implementation.

Mr Ashwin MB
Associate Director, Partnerships
Fortify Health

Urged food businesses to upload certificates of analysis for fortified rice on the Footrace portal.

Ms Inoshi Sharma. IRS
Executive Director
Food Safety and Standards Authority of India
(FSSAI)

Global Food Regulatory Framework on Exports

Discussed the importance of food safety and quality in global trade, emphasizing India's \$4 billion and \$8 billion exports in spices and marine products, respectively. Provided insights into the Codex Alimentarius Commission's role in setting international food standards, highlighting India's achievements and leadership in Codex activities. Stressed the need for industry engagement in Codex to influence standards, proposing collaboration between industry, government, and stakeholders to enhance food safety practices.

Dr Alka Rao
Advisor (Science & Standards)
Food Safety and Standards Authority of India
(FSSAI)

Emphasized the global significance of Codex Alimentarius as a standard-setting body, highlighting its intergovernmental nature and its role in ensuring food safety, fair trade practices, and harmonized international trade standards. They elaborated on India's active participation in Codex committees, citing examples like contributions to standards for spices and marine products, which have bolstered Indian exports and safeguarded domestic industry interests.

Mr Karthikeyan Perumal
Joint Director
FSSAI

Discussed the regulatory challenges faced by the Spices Board, emphasizing issues with ethylene oxide and pesticide residues. Highlighted the importance of harmonizing domestic standards with international requirements and the need to collaborate with pesticide manufacturers to expand label claims for minor crops like spices. Proposed a conclave to address pesticide issues and improve standards.

Mr Ramesh Babu Natarajan
Scientist C
Spices Board India

Outlined the growth of the marine products industry and challenges like regulatory issues and quality standards. Highlighted the need for improved cold chain infrastructure and biosecurity measures in aquaculture, calling for government support to assist farmers.

Mr Dinesh Kumar VK
Business Head
ITC Aqua

KEY TAKEAWAYS

Emphasized good agricultural practices and sustainable farming, addressing the economic challenges farmers face in adopting these measures. Called for industry-government collaboration to support farmers in transitioning to sustainable practices and suggested awareness programs on pesticide use and sustainable farming.

Mr Sreenath Vishnu
Managing Director
Brahmins Foods

Addressed challenges in the spice industry, including regulatory norms, quality standards, and misinformation affecting international perception. Advocated for government initiatives to educate farmers on pesticide use and compliance with global standards.

Mr Nishesh Shah
Partner, Universal Oleoresins and
Vice Chairperson All India Spices Exporters Forum

Building Robustness in Infrastructure & Capacity of Food Testing Laboratories

Outlined plans to organize a training course on microbiological sampling and testing methods and committed to sharing reference materials with participants. He also addressed the issue of retesting challenges in microbiological analysis.

Dr Abhijit Ganguli
Sr Counsellor,
CII FACE

Emphasized the critical importance of microbiological sampling for food safety and compliance, highlighting its unique challenges compared to chemical sampling. He discussed how recent FSSAI guidelines aim to enhance sampling practices across India.

Dr K. N Bhilegaonkar
Principal scientist & Head,
ICAR-IVRI, Izatnagar

Introduced C. Elegans as an innovative model system for detecting microbial contamination and elaborated on using microfluidic devices for rapid testing. He also highlighted ongoing research on bioactive compounds and their impact on food safety.

Dr K. Balamurugan
Prof & Head, Department of Biotechnology
Alagappa University

Stressed the importance of skill enhancement in food testing laboratories and shared progress in training programs for food safety officers and analysts. He noted efforts to promote innovation and entrepreneurship in food safety within academic settings.

Prof V Dharuman
Director, Skill Development,
Alagappa University

KEY TAKEAWAYS

Guidance document for Quality Management of Health Supplements, Nutraceuticals, Food for Special Dietary Use, Food for Special Medical Purpose, and Prebiotic and Probiotic Food

Nutraceuticals and health supplements must comply with detailed regulations, including guidelines for quality management systems, testing frequencies for raw materials and finished products, and categories such as special dietary use and medical purposes. Quality control is critical, requiring food business operators (FBOs) to ensure compliance through rigorous testing and adherence to standards for manufacturing processes.

MSMEs face challenges in meeting testing requirements, especially regarding pesticide residues and raw material sourcing, highlighting the need for targeted awareness programs and traceability initiatives for farmers. To address these issues, stakeholder engagement and regular regulatory guidance meetings will focus on educating FBOs, implementing verification programs, and clarifying compliance responsibilities for sustainable growth.

Mr. Balasubramanian.K
Joint Director
Food Safety and Standards Authority of India
(FSSAI)

Refresher Training for Food Safety Officers (FSOs) by FSSAI

Shared updates on recent developments in FOSCOS, including a planned live demo to showcase key functionalities, such as enforcement follow-ups and hygiene ratings. New bulk improvement notices will be introduced for non-compliant FBOs, along with a risk-based inspection module to prioritize high-risk units, while user ID management and streamlined application processes were discussed for state authorities.

The launch of the adjudication flow and digital forms for legal sampling aims to enhance efficiency, supported by a new data analytics tool for improved data retrieval. Participants raised concerns about system functionalities and suggested improvements, particularly around clarifying officer roles and responsibilities.

Mr Arul Anand
Tamil Nadu FDA

Interactive Session: Milk & Oil Fortification

She held an interactive session with representatives from the Dairy and Oil Industry. She heard out the members concerns and issues and offered suggestions accordingly.

Ms Jagatheswari Palaniyandi
Industry Master Trainer
