

The Cold Chain Industry is developing at a faster pace in India due to shift in focus from increasing the production to better storage and transportation facility of the commodity. The industry has now become an integral part of the supply chain industry comprising of refrigerated storage and refrigerated transportation.

India is the world's second-largest producer of fruits, vegetables, and is one of the top 5 producers of various food items like milk, meat etc., not only in food produces but also has been making a mark in production of drugs and specialty chemicals. Withal the high produces, it accounts for just 1.5% of global produce exports; this is mainly due to poor storage and transportation facility which results in losses of 20-50% of production. Although, the pharmaceutical market is well equipped with temperature controlled cold chain due to strict regulations, still the pharma and food sector lack behind leading to very high amount of wastage.

Owing to the rising need of the infrastructure to reduce wastage, the cold chain industry in India is forecasted to grow at a CAGR of 19% during the period of 2017-2022. The Government of India's initiative on creating Mega food parks, for moving towards reducing wastage and adding value to produce. There are 14 food parks in India, eight sanctioned and there are more in the offing. Each park will have an investment of ₹ 100 crore through public private partnerships. The Ministry has also undertaken a project to build 100 cold storage units in India.

To provide the platform for Cold Chain Industry and since maximum cold chain capacity is used in Food Sector, Confederation of Indian Industry (CII) is launching “**ColdStoRe India**”, an exclusive pavilion focused on Cold Storage, Cold & Refrigerated Transportation and Cold Supply chain as a concurrent show along with “**Foodpro2017**”, largest event on Food Processing, Technology & Packaging, scheduled from 7th – 9th September 2017 at Chennai Trade Centre, Chennai, India.

The Highlights – ColdStoRe 2017

- 3 -Days exhibition with 2000+ Sqm area
- 50 + exhibitors
- 2 Days Technology Conference on Cold storage
- Meeting of CEO from the sector
- Product Launches
- Concurrent shows in Foodpro and TraditionalFoods

ColdStoRe India 2017 focused on the complete cold chain right from primary cold storage facility for food grains and fruits at Farm Level to high end cold storage for meat and food products including the important sector of Cold / Refrigerated Transportation.

ColdStoRe india Pavilion stalls – (Companies: L-R) Williams Refrigeration, Kriloskar, Lloyd Insulations, Western Refrigeration.

In sideline with **ColdStoRe India** concurrent shows **Foodpro 2017** and **T-Food** took place covering almost 10,000 sq mtrs with foot fall of more than 12,000 business and trade visitors.

Foodpro 2017 is a technology exhibition for food processing industry and a platform to interface between the food technology sector and the food industry.

T-Food, a traditional food festival, brought awareness about the traditional and local foods, especially millets. The Show presented newer recipes of cooking traditional foods and provided opportunity to entrepreneurs to showcase the developments in processing of Traditional Food.

Conference

ColdStoRe India along with the exhibition organized 3 days Sectorial conferences on Food Processing and Packaging Technologies, Cold Chain Technologies and Traditional Foods. Present at the conference were more than 250 senior personnel representing CEO's, Industry leaders and many leading manufacturers, dealers, suppliers, government officials and many more.

Day 1: 7 Sep 2017: Conference on Food Processing Technologies

Day 3: 9 Sep 2017 Conference on Traditional Foods

Day 2: 8 Sep 2017: Conference on Cold Chain Technology

Industrialists in ColdStoRe Conference

Interactive sessions with the speakers at ColdStoRe Conference

Speakers

ColdStoRe India Inauguration

Mr B J Kuppuswamy

Sr General Manager, Lloyd Insulations (India) Limited
- *Construction practices and energy saving thermal insulation for today's modern cold store*

Mr Vivekanandan M

Managing Director, Flowcrete India
Industrial flooring for cold storage facilities

Mr Lohithashan Potti

Product Head, Consul Neowatt
- *Power quality challenges & solutions for cold storage units*

Mr. R Ezhilarasu

Danfoss Industries Pvt Ltd
The chairman who facilitated the session

8 Sep 2017: Conference on Cold Chain Technology

Mr S D Saravana Gughan

Chief Executive Officer
Green Kitchen Multi Specialty Food
The chairman who facilitated the session

Mr J Karthikeyan

Chief Executive Officer
Tulya Beverages Pvt Ltd
- *Integrated pack house for fruits and vegetables*

Mr Gobakumar

Proprietor
Hisun Technologies
- *Cold storage and ripening chamber*

Mr Vivekanandan

Managing Director, Flowcrete India
- *Industrial flooring for cold storage facilities*

Mr Alok Pant

Dy. General Manager, Flex Foods
- *Drying of perishables*

Mr Sivaprakash

General Manager- Operation
TCI Supply Chain Solutions
- *Refrigerated transport / refrigerated storage*

Mr Manuranjith

Director, CK Bakery
- *Innovative business model*

Mr S D Saravana Gughan

Chief Executive Officer, Green Kitchen Multi Specialty
- *Post-harvest technologies from food retail & food service perspective*

Mr Nishanth Chandran

Founder & CEO, Tender Cuts
- *Supply chain: Retailer's perspective*

Mr K Chandrasekaran

Director, Jaycee Agro Products India P Ltd
- *Supply chain: Farmers perspective*

Exhibitors Profile

- Cold rooms & Allied Equipment
- Compressors & Condensing Units
- Data Loggers & Low Temperature Instruments
- Heat Exchangers
- Humidifiers and Dehumidifier equipment
- Manufacturers of cold chain Equipment, tools, and technologies
- Infrastructure and operations that supports Cold Chain from design to build & operate.
- Third-party cold storage and refrigeration logistics
- All forms of refrigerated transportation
- Import/export facilities and services.
