POST EVENT REPORT

FOODPRO – OVER THE YEARS

Food processing industry is one of the largest industries in India and ranks fifth in terms of production, consumption and exports. The Indian food market is estimated at over US\$ 182 billion, and accounts for about two thirds of the total Indian retail market. According to McKinsey & Co, the retail food sector in India is likely to grow from around US\$ 70 billion in 2008 to US\$ 150 billion by 2025, accounting for a large chunk of the world food industry, which would grow from US\$ 175 billion in 2008 to US\$ 400 billion by 2025.

India with a huge potential of being a food processing hub is benefited from a large agriculture sector, abundant livestock, and cost competitiveness, looking at the Investment opportunities to arise in agriculture, food infrastructure, and contract farming with diverse agro-climatic conditions the Government of India aims to boost growth in the food processing sector by leveraging reforms such as 100 per cent foreign direct investment (FDI) in marketing of food products and various incentives at central and state government level along with a strong focus on supply chain infrastructure.

Confederation of Indian Industry with the aim of providing a great business platform to aid the Food Processing Industry in achieving better growth launched Foodpro in the year 1995, a biennial event on Food Processing, Packaging & Technology. The event took a growth path favoring the industry by serving its ultimate goal of making a progress in business through showcasing ideas, innovations and development.

Foodpro has once again proved to be a leading platform for Food processing industry. Foodpro 2017 has seen a new phase of change with introduction of two **Concurrent Shows; Coldstore India 2017 and T-Food 2017 (Back to Basics)** and witnessed phenomenal growth in terms of Area and size of exhibitors. The Show also witnessed growing number of Supporters.

Foodpro 2017 Highlights

- **3 Days Exhibition**
- **1st Day Conference on Food Processing & Packaging**
- **2nd Day Conference on Cold Storage**
- **3rd Day Conference on T-Food**, a traditional food, bring awareness about the traditional
- **210 Exhibitors**
- **30 Product Launch**
- **Supported by 26 Sectorial Association**
- **15,000 Trade visitors**

Inauguration of Foodpro 2017

(L-R): **Mr B Thiagarajan**, Co-Chair - Foodpro 2017 & Joint Managing Director, Blue Star Limited. **Mr Gagandeep Singh Bedi**, IAS Agricultural Production Commissioner & Principal Secretary to Government, **Mr Seiji Baba**, Consul-General, Consulate-General of Japan, Chennai, **Mr Chutintorn Gongsakdi**, Ambassador of the Kingdom of Thailand to India, **Thiru O Panneerselvam**, Hon'ble Dy Chief Minister, Government of Tamil Nadu, **Mr C K Ranganathan**, Chairman-Foodpro 2017 & Chairman & Managing Director, CavinKare Private Limited, **Mr R Sathish**, Regional Director - Southern Region - CII, **Mr P Ravichandran**, Chairman, CII Tamil Nadu State Council & President, Danfoss Industries Pvt Ltd.

Thiru O Panneerselvam, Hon'ble Dy Chief Minister, Government of Tamil Nadu, Inaugurating the Foodpro 2017 Exhibition

“Foodpro expo is the greatest opportunity for our farmers to get to know the latest technologies in food processing so that waste can be prevented”

- Thiru O Panneerselvam

“I thank CII for conducting a lot of activities on Food & Agri Processing sector in Tamil Nadu like Foodpro, ColdStoRe & T-Food. Tamil nadu government is proposing to form various clusters for agri and food processing which will also include the cold storage facilities which will be available to farmers and processors at minimal cost,”

- Mr Gagandeep Singh

“The food processing industry is of enormous significance for India's development, as it effectively links industry and agriculture. With the inherent strengths of the Indian food processing industry and the current market requirements could make India one of the most competitive food processing countries in the world”.

“This exhibition will provide a platform for stakeholders to showcase latest technologies in food processing, packaging, cold storage, food, agriculture, logistics and related products”

- Mr C K Ranganathan

“The cold chain industry is emerging as a fast-growing business sector in India as developments in the food processing and organized retail sectors are increasing the export demand for processed and frozen foods. Cold chain is an enabler for sustenance and growth of the food industry and also large opportunities exist in the sector for investments in cold storage and related fields”.

- Mr B Thiagarajan

GLIMPSE OF FOODPRO 2017

Foodpro 2017 witnessed presence of 210 exhibitors and footprints of over 15,000 nos. of visitors.

As a value addition to Foodpro 2017 this year, two concurrent shows were held viz., **ColdStoRe India 2017** and **T-Food (Traditional Food) 2017**.

ColdStoRe India 2017 focused on the complete cold chain right from primary cold storage facility for food grains and fruits at Farm Level to high end cold storage for meat and food products including the important sector of Cold / Refrigerated Transportation.

T-Food, a traditional food festival, brought awareness about the traditional and local foods, especially millets. The Show presented newer recipes of cooking traditional foods and provided opportunity to entrepreneurs to showcase the developments in processing of Traditional Food.

The Conferences focused on the following topics

Coinciding with Foodpro 2017, CII organized Sectoral Conferences on Food Processing and Packaging Technologies, Cold Chain Technologies and Traditional Foods.

Around 250 senior personnel representing CEO's, Industry leaders & senior executives of leading manufacturers of processed & packaged foods, technology providers, Post-harvest Technology, Processing equipment manufacturers, Producer companies, food safety solutions provider, Exporters; Retail chains and Government agencies participated in the conferences.

Day 1: 7 Sep 2017: Conference on Food Processing Technologies

- CEO's Session on Future of Food Industry
- The Future of Food Manufacturing
- Innovative Packaging Technologies
- Food Regulations , Food Safety, Consumer Awareness

Day 2: 8 Sep 2017: Conference on Cold Chain Technology

- Technology, Industry Perspective, Capacity Development
- Cold Storage Infrastructure and Post- Harvest Management
- IoT Solution for Cold Chain
- Cold Chain Logistics

Day 3: 9 Sep 2017 Conference on Traditional Foods

- Cultivation & Raw Material Sourcing
- Traditional Methods of Processing & Value Added Products
- Food safety regulations in traditional food industry, labelling & packaging for traditional foods
- Marketing and Brand Promotion, Financing for Traditional Food Industries.

Product Launches @ Foodpro 2017

Exhibitors were given opportunity to launch their product/ services to their clients and visitors through a dedicated “**Product Launch platform**” at the venue. The Show registered more than 30 new product launches.

Display of products at the exhibition covered; Food Processing Technology & Machinery; Retailing & Vending Systems; Hotel & Kitchen Equipment; Health / Wellness Products; Bakery Equipment, Machinery & Technology; Ingredients, Fragrances & Flavors; Packaging Machinery & Technology; Refrigeration & Cold Chain System; Processed & Packaged Foods, Dairy & Milk Processing Technology; Refrigerated Transportation Solutions; Ready to Eat Foods, Snack Foods Segments, Traditional Food Items including Millets.

Foodpro 2017 has emerged as a strong networking platform with the support of **26 sectoral associations** in the food and related industry sectors.

FOODPRO 2017 – OUTDOOR PROMOTIONS

Opens CII Foodpro fair at Nandambakkam Govt set to promote vibrant food-processing sector: Dy CM

TN tops in agri production, leader in animal husbandry

Chennai, Sept 7: Government is all set to promote the vibrant food processing sector in the State with the focus objectives of generating more jobs, ensuring better returns to farmers, ensuring better service to consumers and delivery of the highest quality products. Deputy CM O. Panneerselvam, Minister of Industries, Government of Tamil Nadu, inaugurated the CII Foodpro 2017, a food processing exhibition, at Nandambakkam today. Deputy CM Panneerselvam said that the food processing sector has a huge potential to create jobs and ensure that the food produced meets the changing preferences of consumers. He explained...

TN to invest ₹1,000 cr in food-processing industry

Food processing ensures better returns to farmers, says Deputy CM

Creates more jobs. Only 4.6 per cent of the produce is processed and 35 per cent of vegetables and fruits goes waste due to the lack of adequate cold storage facilities. Panneerselvam said the push to food-processing is the need of the hour, as it can ensure better return to farmers and create more jobs in rural areas. He said the State will put in place regulations to ensure quality and food safety to become a global food market. Keeping in line with this objective, a research and development centre and public-private partnership will be explored to bring in innovative products with longer shelf life, he added.

CII unveils local food fest at Foodpro

Chennai, Friday, September 8, 2017

CII unveils local food fest at Foodpro. Chennai: CII kickedstart the three day Foodpro-India's biennial event on food processing, packaging and technology - the 12th edition from Thursday at Chennai Trade Centre. O Panneerselvam, Deputy Chief Minister of Tamil Nadu was the Chief Guest who inaugurated the event. With the presence of over 250 exhibitors, Foodpro 2017 provided an important platform for all stakeholders to showcase the latest technology in food processing, packaging, cold storage, warehousing, food and agriculture, logistics and related products. This year, as a value addition to Foodpro 2017, two concurrent shows are being organised viz. ColdStoE 2017 and T-Food 2017. ColdStoE will focus on the complete cold chain. T-Food, a traditional food festival will aim to bring the awareness about the traditional and local foods, especially millets.

T-Food, a traditional food festival will aim to bring the awareness about the traditional and local foods, especially millets.

Adopt tech to prevent food wastage

O. Panneerselvam addresses food processing exhibition

STAFF REPORTER

"We need to concentrate on eliminating food wastage that is a major concern for farmers of the State, and it can be prevented by adopting technology," emphasised Tamil Nadu Deputy Chief Minister O. Panneerselvam, while addressing a gathering during the inaugural session of the Confederation of Indian Industry's (CII) 12th edition of 'Foodpro 2017' an exhibition on food processing, packaging and technology, inaugurated at Chennai Trade Centre at Nandambakkam, on Thursday.

"Tamil Nadu is a leader in many areas of agriculture and related works. For example, we are the largest poultry market in the country, contributing 17.7% of the country's produce. This expo is the greatest opportunity for our farmers to get to know the latest technologies in food processing so that wastage can be prevented," Mr. Panneerselvam said.

Principal Secretary, Agriculture, Gagandeep Singh Bedi, said, "Though the State is in the forefront of food grain production, in churning maize, oil seeds, fruits, including banana, and topioca, we need to do more work when it comes to food management."

Delivering the expo's theme, Foodpro's chairman C K Ranganathan said, "This year's exhibition focuses on two themes, ColdStoE and T-Food. While the former showcases cold storage and refrigerated transportation, the latter will highlight the traditional foods of the State."

The inaugural event witnessed the participation of the Indian Consulate General Seji Baba, Thailand Ambassador Chutintorn Gongskaki, and officials from CII. The event will conclude on Saturday.

Tech support can check food wastage: Deputy CM

Advancements in processing, packaging or display

Panneerselvam inaugurates CII exhibition

Chennai, Sept 7: Deputy CM O Panneerselvam inaugurated the 12th edition of Foodpro-India's biennial event on food processing, packaging and technology - the 12th edition from Thursday at Chennai Trade Centre at Nandambakkam.

"We need to concentrate on eliminating food wastage that is a major concern for farmers of the State, and it can be prevented by adopting technology," emphasised Tamil Nadu Deputy Chief Minister O. Panneerselvam, while addressing a gathering during the inaugural session of the Confederation of Indian Industry's (CII) 12th edition of 'Foodpro 2017' an exhibition on food processing, packaging and technology, inaugurated at Chennai Trade Centre at Nandambakkam, on Thursday.

Food processing among priority sectors: OPS

Chennai: Tamil Nadu will set up food processing units in 10 districts with a budget of Rs 386.76 crore, said TN deputy chief minister O Panneerselvam.

Speaking at the Food Pro exhibition of the CII, Panneerselvam said that projects and programmes on post-harvest supply chain and cold storage facilities are also being set up.

"The state has always considered food processing as a priority sector. It creates jobs in the rural areas. Our former chief minister J Jayalithaa had started the second green revolution in the state and there are farmer-friendly policies in the state. About 4% of the working population is dependent on agriculture, even if the sector contributes less than 10% to the GDP of the state," he said.

Panneerselvam also went on to explain that the agricultural produce is lost due to wastage and attention must be paid to reduce the same and increase the shelf life of produce.

Projects and programmes on post-harvest supply chain and cold storage facilities are also being set up: TN deputy CM

"Improvements in storage, processing post-harvest are being worked on. In six districts including Erode, Coimbatore, Tutuorin, Thiruvananthi and Tiruchirappuram, cold chain infrastructure is being created to reduce wastage of produce," he said.

Gagandeep Singh Bedi, agricultural production commissioner and principal secretary to the government of Tamil Nadu said, "We have tied up with NITI Aayog for a pilot project in food processing in 10 districts and we expect them to be up and running in the next one and half years."
